

# Products & Capabilities

With a vast array of presses and finishing equipment, Royal Business Forms & Printing is confident that we can accommodate your printing needs. From basic business forms to custom four-color products, our versatility ensures that we can be your complete business forms and checks supplier. Our plant in Brooklyn Park, Minnesota, houses a variety of web, pack-to-pack, and sheetfed presses — along with an extensive bindery operation, on-site storage needs and the capacity to distribute and track your product to a large number of locations.

## Press Sizes and Units

Press Sizes (in inches)	Form Depths (in inches)	Number of Units*
8	4 • 8	4
8½	4¼ • 8½	4
11	2¾ • 3¾ • 5½ • 11	8
12	3 • 4 • 6 • 12	4
13	3¾ • 6½ • 13	4
14	3½ • 7 • 14	6
17	4¼ • 5½ • 8½ • 17	4
22	2¾ • 3¾ • 5½ • 7½ • 11 • 22	5

\*This figure determines the maximum number of units that may be used at one time for any given job. This includes the number of color units, numbering/imprinting units, etc. Please refer to **The Printing Process section** for a brief explanation and a diagram.

## Snapout Capabilities and Options

- Up to Eight Colors (see chart)
- Up to Eight Parts
- Carbonless
- Carbon Interleaved
- Stripe and Pattern Carbon
- Inline and Offline Numbering
- Checks
- Perforating
- Punching and Drilling
- **Four-Color Process**
- Desensitizing
- Transfer Tape

## Continuous Feed Capabilities and Options

- Up to Eight Colors (see chart)
- Up to Eight Parts
- Carbonless
- Carbon Interleaved
- Stripe and Pattern Carbon
- Inline and Offline Numbering
- Pack Printing for Short Runs
- Short to Long Run Checks
- Perforating
- Punching and Drilling
- Gluing
- **Four-Color Process**
- Label Affixing
- Desensitizing
- Cross-Web Gluing
- Transfer Tape

## Sheet Capabilities and Options

- Up to Eight Colors (see chart)
- Laser Guaranteed Paper
- U.V. Drying
- Laser Perforations
- Punching
- Short to Long Run Laser Checks
- Security Features
- High Speed Padding
- Saddle Stitching
- **Four-Color Process**
- Numbering
- Diecutting
- Desensitizing
- Inline Shrinkwrapping
- Stapling
- Sheetfed Printing
