Dear Jeff and Veronique,

WestRock has announced a linerboard, medium and white top increase effective March 1, 2021.

Containerboard represents the single largest component of our cost structure. Accordingly, we notify you of a 12% increase on the boxes and an 14% increase on the sheets that you purchase from WestRock effective with shipments on or after April 1, 2021.

We remain committed to helping you reduce your costs through innovative packaging solutions and services. We can help you offset increasing costs with board optimization initiatives and many other cost reduction strategies we have implemented across our customer base. Please talk to your account manager to start the process.

We appreciate your business and will continue our long-term commitment to provide innovation, quality packaging and services at competitive prices. Please feel free to contact us directly with any questions regarding the increase or the trends in our industry.

Sincerely,

Patrick Hoshor
